Events organized:

The ECE department conducted its first International conference on “Recent Advances on Energy-efficient Computing and Communication” on March 01 and 02, 2018. The conference was aimed to provide an intellectual forum for professionals of different culture to exposit and emphasize the application of science and technology for related existence of human life. The conference received more than 90 papers and among them 75 papers were selected. They were presented on various venues. Papers were presented on various topics under Mobile IOT, Cloud Computing, Smart city security and privacy, Real time Image processing, Signal processing, Multiuser MIMO-OFDM systems.

International Conference on Recent Advances in Energy-efficient Computing and Communication (ICRAECC 2018) - March 01&02

Release of Proceedings -ICRAECC 2018- March 01&02

Er. A. Basker, Technical Advisor, Oman delivered the inaugural address who highlighted the recent advancement in technologies and also stressed the significance to live in harmony with the nature by indicating the present condition persisting in Cape Town.

Key note Address- Er. A. Basker, Technical Advisor, Oman

Dr. S. Rajaram, Associate Professor ECE Department, Thigarajar College of Engineering delivered a speech on Energy Efficient Wireless Communication who insisted that reconfigurable computing systems retain the execution speed of dedicated hardware but also have a great deal of functional flexibility.

Key note Address- Dr. S. Rajaram, Thigarajar College of Engineering

Conference paper presentation

The valedictory address for the conference was delivered by Mr. A. BenzigarRajan, Deputy Manager, Cryogenic Instrumentation Systems, ISRO-Mahendragiri who indicated the importance of Cryogenics system in building an effective satellite communication system

Vision of the Department

Developing technically competent Electronics and Communication Engineers with academic excellence, innovative research, ethical standards and international outlook to serve the society

Mission of the Department

M1: To provide quality teaching in order to produce graduates with academic excellence, technical competence and ethical values.

M2: To develop advanced professionalism and exceptional career growth through inspiring faculty members and excellent infrastructure.

M3: To create awareness on state of the art technologies through research and industry-institute collaboration.

M4: To inculcate a sense of innovation and commitment among the students to apply knowledge and technologies for the benefit of the society.

Program Educational Objectives (PEOs)

PEO1: To enable graduates to pursue research, or have a successful career in academia or industries associated with Electronics and Communication Engineering or as entrepreneurs.

PEO2: To provide students with strong foundational concepts and also advanced techniques and tools in order to enable them to build solutions or systems of varying complexity.

PEO3: To prepare students to critically analyze existing literature in an area of specialization and ethically develop innovative and research oriented methodologies to solve the problems identified.
