

# St. XAVIER'S CATHOLIC COLLEGE OF ENGINEERING (AUTONOMOUS)

## Guidelines for availing Seed Grant for Research Projects

---

### 1. Objective of Seed Grant

The seed grant aims to support faculty members in initiating and conducting **intensive research activities**.

---

### 2. Eligibility and Funding Details

- **Eligibility:** Open to all faculty members actively involved in research.
  - **Funding Amount:** ₹50,000
  - **Utilization:** The grant can be used for the procurement of equipment, hardware, software, consumables, and travel.
- 

### 3. Application Process

1. **Submission of Seed Grant Request Form:**
    - Faculty members must complete and submit the **Seed Grant Request Form** to the **Dean of Research** through their **Head of Department (HOD)**.
  2. **Scrutiny by Institutional Research Committee (IRC):**
    - The **IRC** evaluates the submitted proposals based on relevance, feasibility, and potential impact.
  3. **Forwarding of Recommendations:**
    - Proposals recommended by the IRC are forwarded by the **Dean of Research** to the **Correspondent** through the **Principal**.
  4. **Approval:**
    - The **Correspondent** reviews the recommended proposals and approves the grant.
- 

### 4. Monitoring and Reporting

1. **Quarterly Progress Presentations:**
    - Faculty members must make a **quarterly presentation** to the **Institutional Research Committee** outlining the project's progress and challenges.
  2. **Periodic Publications:**
    - Recipients of the seed grant are required to publish **technical papers** in **SCI/Web of Science-indexed journals**, aligned with their research area, at regular intervals.
  3. **Completion Report:**
    - Upon project completion, faculty members must present and submit a detailed **project report** to the **Dean of Research**.
- 

### 5. Key Guidelines

1. **Proposal Content:**
  - Clearly define research objectives, methodology, expected outcomes, and a detailed budget plan.
2. **Allowable Expenses:**
  - Funds may be allocated for equipment, software, consumables, and travel expenses directly related to the project.
3. **Documentation:**
  - Maintain detailed records of expenditures and research progress for audit purposes.
