Strengths

- Course Files adhering uniform structure, facilitating easy access and navigation.
- Concept Maps are meticulously developed by faculty members illustrating key course concepts and relationships.
- The Students' Technical Association activities were well planned, executed and recorded.
- Class Committee Meetings are well-organized.
- The mentor documents are thoroughly organized, up-to-date.
- Faculty members are proficient in their instructional methods.

Recommendations

- **Assignments** are more conventional type. Apart from written assignments other assessment tools like Technical Quiz, Tutorials, Seminars, Technical Presentation, Debate, Group mini project, and Case study are suggested.
- **Fast learners** have to be identified and encouraged to participate in GATE, TOEFL training classes, value added courses, workshops, seminars, paper presentation, paper publications in national, international conferences.
- **Self-learning** activities should be made prevalent among students.
- Implement interdisciplinary programmes fostering innovation and creativity.
- Lab experiments can be assessed through viva after each experiment.
- Lab programmes can be differentiated to enhance learning variety and engagement.
- The Course Outcomes are calculated with split-up marks for Internals.
- Split-up marks for the End Semester Examination should also be obtained.
- Currently, the pass percentage is being used for outcome measurement of the End Semester Examination, which is not

accurate. Instead, the outcome for each individual student should be considered.

- The placement outcomes are not meeting expectations. This area needs to be thoroughly analyzed, and appropriate steps should be taken to improve the results.
- Importance shall be given for design based experiments.
- Industrial and multidisciplinary projects shall be encouraged.
- Integrate advanced technological tools into the teaching process to increase student engagement and improve learning outcomes.
- Explore partnerships with external academic institutions and industry leaders to expand research opportunities for faculty and students.
