| About the Conference

International Conference on Computing Technologies (ICCT 2021) aims to bring together top researchers around the world to exchange research results and address open issues in all aspects Computing Technologies. The conference outlooks for latest research articles and practically implemented results and computations of real time problem from students, industrialists, scientists and educators.

Computing is any goal-oriented activity requiring, benefiting from, or creating computing machinery. It includes the study and experimentation of algorithmic processes and development of both hardware and software. It has scientific, engineering, mathematical, technological and social aspects.

| Objectives of the Conference

- Aims to bring together the leading academicians, researchers, industrialists and research scholars to exchange and share their research ideas and results about all aspect of Computing Technologies. The conference also aims to provide an interdisciplinary platform for scientist, engineers and researchers in the domain of interest to present their latest research ideas, developments in all areas of Computing technologies.
- Promote academic-industry interaction. Provide a platform to share and exchange the cutting-edge research ideas.
- Bridge the gap between academia and industry by fostering technical paper submissions, keynotes, invited talks, panel discussions.
- Provide opportunity for budding student researchers to develop and enhance their research skills.

| Outcome of the Conference

International Conference helps to bring together researchers, scientists, engineers, and scholar students to exhibit and share their experiences, new ideas, and research results in all aspects of Computing Technologies and explore the practical challenges encountered and the solutions adopted.

| Publication

The best Selected Papers will be published in UGC approved journals of ICTACT

Keynote Speakers

Dr. Marwan I. Alshar'e

Professor,
Faculty of Computing Science (Affiliation with
Staffordshire University, UK), Gulf College, Muscat,
Sultanate of Oman.

Dr. Ronald S. Cordova

Professor & Module Leader,
Information System Development Trends and
Practical Collaboration with Cloud Technologies,
Gulf College, Mabella, Oman.

Dr. D. C. Shubhangi

Professor & Chairman,
Department of Computer Science & Engineering,
Visvesvaraya Technological University,
VTU Regional Office, Kalaburagi, Karanataka.

Dr. Priestly Shan B

Professor & Dean of Academic Affairs,
School of Electronics & Communication Engineering
Department, Galgotias University, Uttar Pradesh.

Dr. Mohanalin Raja Rathnam

Professor & Head,
Electrical And Electronics Engineering Department,
College of engineering Tirkaripur, Kerala.

Call for Papers

- Authors are invited to submit original and unpublished research papers.
- Papers are invited in the areas of computational technologies. Authors from Scientists, Faculty, Research Scholars, Post Graduate Students and Under Graduate Students are invited for the submission of their papers.
- For all the accepted papers at least one author should register and present the paper.
- Detailed instruction about the paper format & submission will be provided in the conference website: www.sxcce.edu.in/icct.
